

## 4<sup>th</sup> grade Pueblo Zoo Scavenger Hunt

1. At the Pueblo Zoo today I found many animals. I grouped the animals so the ones most alike were together. This is called \_\_\_\_\_.

2. Some animals had backbones and are called \_\_\_\_\_.

3. Other animals did not have backbones and are called \_\_\_\_\_.

**Bonus** Name one animal you saw without a backbone: \_\_\_\_\_.

4. One of the animals I saw had feathers. It flew from the ground to a tree where it had built a nest. In its nest it had eggs. The animal I saw was a type of \_\_\_\_\_.

**Bonus** Name the largest one of these you saw today? \_\_\_\_\_.

5. I walked through the Zoo until I discovered another animal. This animal looked fuzzy, like it was covered in fur. These animals must be \_\_\_\_\_.

**Bonus** If this animal were to have babies, it would:

- A. Take care of them
- B. Feed them with milk
- C. Teach it ways to survive on its own
- D. All of the above

6. I saw an animal with scales all over its body. It was curled up on its heat rock, because this animal is ectothermic (cold-blooded). This animal was a kind of \_\_\_\_\_.

**Bonus** The babies of this type of animal most likely would:

- A. Be born alive
- B. Hatch from eggs
- C. Learn to survive without the help of its parents
- D. B and C only

7. In an aquarium in the Discovery Room, I saw an animal that looked very slimy. I watched it swim through the water then walk on dry land. This was an animal that lives both in water and on land. This animal must be an \_\_\_\_\_.

8. I saw a type of mammal in the Australian section near the lion exhibit. It was a mammal with strong legs used for jumping. It had a long tail used for balance. This mammal has a pouch for its baby to hide in. The mammal I saw was a \_\_\_\_\_.

9. In the EcoCenter I saw a bird. It was black and white with short wings that looked like flippers. Its feet were webbed. This bird cannot fly but swims instead. The bird I saw was a \_\_\_\_\_.

**Bonus** This animal is endangered.

True  
False

10. The Pueblo Zoo doesn't have very many of these but I saw a pool filled with water in the EcoCenter Rainforest. There were several animals swimming there. Each of these animals had scales and lived in water all the time. This animal was a \_\_\_\_\_.

11. In the World of Color building, I saw lots of reptiles. One of the reptiles had a hard shell for protection. It uses its clubbed feet to walk on land. This reptile is a \_\_\_\_\_.

**Bonus** On which continent would you find one of these animals in the wild?

12. My day at the Zoo was very exciting. I saw many of my favorite animals. I saw the lions, the camel, the Crown Cranes, the ring-tailed lemurs and even a reticulated python! I hope I go to the Zoo tomorrow too!
